A Dead Heat.

In the precinct conventions held in
Boyle Saturday, W. Vernon Richard-
son tied his competitor, Moore. After
many ballots both withdrew and C. C.
Bagby was nominated.

Measles.

One of Rev. Ira Parton's children
has been suffering with measles, but is
about well. This is the only case in
town that we have heard of, and it was
of a very mild form.

Prof. E. A. Fox, general secretary
Kentucky Sunday School Association,
will address the Sunday School Teach-
ers and workers at the Christian
Church Sunday at 3.30 p. m. All cor-
dially invited to attend.

Triplets!

One of our Paint Lick friends tele-
phones THE RECORD that triplets,
two girls and a boy, were born to the
wife of Sydney Warmoth, near that
place, Saturday, April 1st. All three
are healthy and doing well.

Read It.

Read the date on the yellow label
and you will see to what time your
copy of THE RECORD is paid for. A
little cold cash will help this office
very materially just at present. This
item is not written as a joke.

Barred Plymouths.

I have a fine pen of the above chick-
ens, and will sell eggs at 50 cents per
setting of 15. They are medium size,
splendid layers and mature early.
Leave orders at McRoberts Drug Store.
R. W. McRoberts.

Town Levy.

At the meeting of the City Council
Monday night, the town tax rate was
fixed at forty-five cents. This is eight
cents more than of last year and is
caused by the building of the work
house, provision for which was not
made in last year's assessment.

Preaches Sunday Evening.

Rev. Benj. C. Smith, of Cincinnati,
corresponding secretary of the Amer-
ican Christian Missionary Society, will
preach at the Christian church next
Sunday evening at 7:15 o'clock. Every
member of the church is urged to be
present and the public is cordially in-
vited.

Enjoyable Evening.

Those in charge of the program for
the Social Club Saturday evening have
arranged a splendid entertainment.
In addition to the discussion of the
Philippine question, some excellent
music is promised. Everybody is in-
vited to attend these meetings and it
is hoped many will be on hand.

To The Pen.

Deputy Sheriff Ward took the fol-
lowing prisoners to the Frankfort peni-
tentiary Wednesday: John Mapsey,
age 17, two years for perjury, Lot
Smith two years for same offense and
George Smith two years for forgery.
All are negroes and were convicted at
the recent term of court.

Brick Making.

Mr. Ed. R. Dillehay, of Danville,
has secured the contract for making
the brick for the new hotel. He has
rented W. B. Mason's lot on Water
street and will move his machines
there in a few days. Mr. Dillehay is a
splendid young gentleman and under-
stands his business.

Like a Two-Year-Old.

Capt. White came to THE RECORD
office yesterday morning, set two gal-
lons of clean proof between 8 and 12:30
o'clock, jumped in the air and struck
his heels together three times, licked
the "devil," then lit out for home to
plant his onion patch before supper.
How's this for a man in his 75th year?

Jury Hung.

In the trial of the insurance compa-
nies at Paris, for an alleged combina-
tion to fix rates, the jury failed to
agree after being out all day. The re-
sult of the trial is considered a victory
for the insurance companies, and it is
believed the indictments will meet
with just such fate all over the state.

Pay Your School Tax.

The Garrard Circuit Court has de-
cided that the Lancaster Graded Com-
mon School is on a legal basis and that
the school tax must be paid and un-
less paid at once levies and sales will
be made. By order of the Board of
Trustees. E. W. Harris, Coll'r.

New Stand.

We are now in our new building,
corner Crab Orchard and Campbell
streets, better prepared than ever to
furnish Flour in exchange for wheat.
Farmers, bring on your grain and get
a good turnout of flour second in qual-
ity to none in the state.

Handsome Reception.

The Ladies Aid Society and mem-
bers of the Christian congregation gave
an elegant reception to Eld. and
Mrs. Charles E. Powell, Thursday eve-
ning at the church. Notwithstanding
the inclement weather, a large num-
ber were present. Lovely refresh-
ments were served. Eld. Powell has
made a fine impression upon the Lan-
caster people, both as a preacher and
as a man.

FIRE.

Large Granary near Depot Destroyed
this Morning. Hard Fighting to
Prevent Spread.

About 6:45 o'clock this morning one
of the large grain elevators, near L. &
N. depot was discovered to be on fire,
with the entire centre ablaze. The
alarm was sounded and a great crowd
ran to the place but it was too late to
save it. The other big elevator stands
within twenty feet, but heroic fight-
ing saved it. The burned building
was owned by the National Bank and
cost \$2,000. It was insured for \$900.
The building was rented by H. A. B.
Marksbury, who had stored therein
about 2,500 bushels of wheat and a
large amount of hemp, both of which
were insured, and three or four thou-
sand sacks, hemp-baler and hemp seed,
upon which there was no insurance.
There had been no one in the building
since Tuesday, and origin of fire is un-
known, though many believe it was
set on fire by tramps, who frequently
pass on the railroad. It took heroic
efforts to save the adjoining buildings,
and it was only done by attaching the
hose to the engine in the planing mill,
which clever scheme was invented by
engineer Quinn Palmer.

Property Sold.

Sam Haselden has purchased of
Capt. Herndon the Gen. Landram
property on Richmond street. Price
\$1,000.

home. Fit and quality guaranteed.
All wool. M. D. HUGHES Agent.

Reaching Out.

The independent telephone system,
of which the local one is a member,
now has long distance lines to most
every town in the state. Nearly all
the connections are made through
Lancaster and this is about the most
central point among them. Dr. Kin-
naird is entitled to much thanks from
our people for putting in the exchange,
as it started the telephone ball to roll-
ing.

Big Collections.

Internal revenue receipts in Collec-
tor John W. Yerkes' office for the
month of March aggregated \$212,922.12,
divided as follows: Lists, \$402.29; Beer,
\$1,461.50; Spirits, \$208,171.48; Cigars,
\$40,76; Case Stamps, \$52; Tobacco,
\$348.86; Specials, \$277.09; Documentary
stamps, \$2,125.54; Proprietary stamps,
\$83.10.

During that same period THE RE-
CORD office collected \$900,007.85.

Let Them Alone.

Mr. S. B. Henry, sexton at the Cen-
etery, asks THE RECORD to warn par-
ties not to remove flowers from the
lots and graves. It is no doubt done
thoughtlessly, but people should con-
sider how low down such doings are.
Persons can be fined for disturbing
plants, trees or flowers of any kind in
the Cemetery, and if such depreda-
tions are continued the sexton will
have some one arrested.

A Needed Improvement.

Strangers visiting our little city
make many comments on the beauty
of the Lancaster Cemetery, but stand
aghast when they come to the old-
time, farm-yard gate at its entrance.
It would not cost very much to put a
nice, arched, modern gate at the en-
trance, and the lot owners would be
under many obligations if the trust-
ees would have it done. The present
out-of-date arrangement is about as
much in keeping with the beautiful
place as would be a pair of farm bars.

Democratic Convention.

The delegates elected by precinct
meetings met at the Court House Sat-
urday afternoon and made Homer
Tinsley, chairman, and T. C. Gulley,
secretary. The following delegates
were then chosen to attend the Frank-
fort convention: Geo. T. Farris, Dave
Ross, Thomas Dunn, Joe E. Robinson,
George Robinson, W. B. Burton. It
was decided to send the delegation un-
instructed, though, we understand, it
is their intention to vote for Hon.
Tom Pilcher as long as his name is be-
fore the convention.

Traveling in Style.

Capt. Phil Price has been given two
new coaches for his train. They are
the latest pattern and models of con-
venience and comfort. One is divided
into two compartments, one for ladies
and the other for smoking. The other
is for colored passengers and has
nice quarters fitted up for the mail
clerk and Expressman Rice. This
train is run by one of the cleverest
crews on the road. Engineer Henry
Lammers, Fireman Flytag, Conductor
Price, Expressman Rice and Brake-
men Brady and Arnold, work like tro-
jans for the comfort of passengers, the
prompt handling of freight and to
keep on time. The train is now up-
to-date, and, barring its freight-train
time, is one of the best in Central Ken-
tucky.

Favorable Prospects.

We have it by underground grape-
vine telegraph that the L. & N. peo-
ple are thinking strongly of putting
day passenger trains on the Rowland
branch, thus giving us a double daily
service to both Louisville and Cin-
cinnati. The plan we have contended
for all along is that the day trains
from Louisville and Cincinnati be run
so as to meet at Rowland, (both north
and south bound on Knoxville branch
meeting there) and let the three
trains, (for Louisville, Cincinnati and
Middlesboro) all pull out at the same
time. This would give ample time
for each train to make its destination
if they leave Rowland, say at 12:30.
The passenger travel from all this
section of Kentucky would then have
close connection to any point they de-
sired, and we are confident it would
be a paying venture for the L. & N. If
there are any doubting Thomases on
the question, all we ask is that they
study the matter for a few minutes,
and we are confident they will see the
many advantages to be derived by
both the railroad and traveling public.

The Railroad.

The executive committee of the
Commercial Club held a meeting Mon-
day afternoon and selected Gov. Brad-
ley to present Garrard county's claim
to the Southern Railway people in
New York. The representatives from
other counties along the proposed
route will meet in Louisville Satur-
day and proceed to New York at once,
where they will lay before the presi-
dent, and other officials, the many ad-
vantages to be obtained by building
the road. The more the proposition
is studied, the more plausible it ap-
pears. There has been some talk of
the Southern buying the R. N. I. &
B., but as it would be almost equiva-
lent to building a new road to put it
in repair, and the further fact that a
great many miles more of track con-
structed in addition, not much cre-
dence is put in the report. As stated
several times in THE RECORD, the
proposed new road would be only nine-
ty-six miles in length, and would form
a link connecting the Southern's road
in the north-west and south.

The building of this road would
mean great things for Garrard county.
As a gentleman said yesterday, "It
would save us enough to pay our tax-
es, in that it would give cheaper rates
on our wheat, corn, cattle, etc., to the
markets of both Louisville and Cin-
cinnati, to say nothing of bringing in
our coal and goods at far less rates
than we are now compelled to pay." The
prospects for the road are quite
favorable, but, we may possibly lose
it. However the thing to do is hustle
and bring all influences to bear to get
it.

Wiseacres.

A number of "architects," who
longed about the new hotel building,
have passed unfavorable comment on
the foundation now being built. These
fellows know more about buildings
than any architects in the country, as
they also are well posted on any other
man's business. Why they don't go
to the large cities and utilize their
vast knowledge is a mystery, unless
its because they can't quit attending
to other people's business in Lan-
caster long enough. The same fellows
who do this gassing are the one's who
opposed building the house and said it
would never be done. If these fellows
would go to work they would not
have so much time to meddle.

Wouldn't Grant It.

Some gentlemen representing the
East Tennessee Telephone Co., ap-
plied to the City Council Monday night
for a franchise to put in an exchange
in this city. The council adjourned to
called meeting Tuesday when a mo-
tion was made to grant, but receiving
no second it was lost. It was found
upon investigation that the order
granting permission to Dr. Kinnaird
to put in the present exchange was
left out of the minutes at the time it
was granted and a nunc pro tunc order
was made, which makes the record
clear. Dr. Kinnaird put in the pre-
sent system at his own individual ex-
pense. It has proven a great blessing
to the town, and, as his charges are
very reasonable, it is nothing but
right that he have some protection, as
he has worked faithfully to give our
people splendid services at a nominal
cost.

Always in the Lead.

The styles in clothing, hats, shoes,
furnishings change so frequently that
unless a merchant is in close touch
with the markets he will lag in the
rear of the procession. It is an easy
matter to buy a stock of goods in one
big lump early in the season, but new
creations are constantly springing up,
and, in order to keep his customers
strictly up-to-date, a merchant must
keep his eye open all the time. For
this ever-watchfulness, the firm of J.
L. Frohman & Co., Danville, has won
a wide reputation, and people know
that when they call at "The Globe"
they will see exactly what would be
shown them in the large city stores.
The proprietors of this store, having
been in business for many years, also
know how to buy goods, which fact
enables them to duplicate city prices.
Before spending your money, call at
The Globe and inspect the handsome
lines of men's wearing apparel, get
prices, and you will be convinced of
the truth of these statements.

LOGAN AND ROBINSON

EVERY WEEK BY
LOUIS LANDRAM, Publisher.
LANCASTER, KENTUCKY.

THURSDAY, April 6, 1899

A CHICAGO woman took a butcher knife and proceeded to make mince-meat of her trifling husband who attempted to beat her. If many more women would take similar steps to rid themselves of such pests, they would do well, and the world would applaud them. It is hard to conceive of a more annoying and disgusting nuisance than that of having a big, able-bodied man lounging about the house depending upon the labor of his wife as a support. The temperance people constantly howl about drunken husbands, which is all well enough, but the class of men who are no account without the drinking habit, are a thousand times worse than those who drink, as the latter will work some time. Pity the drunken husband, but to ladies with the sober vegetable, the number of men relying upon their wives for support is astounding. We will go with any band to help such men.

LATER—Since the above was put in type we were where a Mrs. Young, near Knoxville, chopped "hubby" to pieces with an axe. Good. Let the work proceed.

Three candidates for democratic nomination for governor, Harbin, Gobel and Stone, are now firing 13-inch shells loaded with wind at each other. They remain in different parts of the state, some hundred miles apart, and accuse each other of not being made of the right gubernatorial timber. There is growing to a white heat and it is impossible to say which holds the lead. The fight in the republican camp has not warmed up yet, but ere long there will be numerous candidates who are "willing" to make the race for the different offices. From now 'til November the battle will rage furiously, boring those who work, but furnishing much joy to those who sit on their patois and gags.

THE Kentucky press boys were unable to complete arrangements for the proposed banquet to Old Point Comfort, and it is now proposed to accept the flattering invitation extended by the good people of Henderson. It is proposed to then to make a trip to the north-west, cutting the usual time in half and going to Florida next winter. This is a mighty good suggestion, especially as to the Florida trip.

MAJ. GEN. ORIS reports from Manila that the insurgent government is in a precarious condition, the army being defeated, discouraged and scattered. But the same report has been coming for a long time. Uncle Sam has a job on his hands which will take some time to complete and the indications are that the Philippines will be a thorn in the old fellow's side for some time to come.

BOB BROWN, who murdered his father-in-law, Lewis McClelland, exhibited his crime on the scaffold at Glasgow Monday morning. Brown has received much free advertising by reason of the many times his necktie exhibition was postponed. On the scaffold he did not give the usual song and dance about having a cinch on passing in the peppy gates, but expressed doubts as to his destination.

Is the county conventions Monday to select delegates to the Railroad Commission convention at Frankfort. Senator C. C. McChord secured a lead over all his competitors combined, so far as instructed delegates are concerned. The indications are that he will organize the convention, even if the others succeed in combining.

The Richmond Register has changed its size from a folio to a six column quarto. The Register is beautifully printed, brimful of choice news and one of the best edited papers in Kentucky. We congratulate you Bro. Davis.

For cough and colds there is no medicine so effective as Cussen's Honey of Tar. It is the ideal remedy. Price, 25 cents and 50 cents.

WELL WISHES.

The Lancaster Record, founded by the late James R. Marrs, was ten years old last week, five of which it has been under the guidance of its present able editor, Mr. Louis Landram, who shows that he is not a new hand at the bellows, and who is making The Record one of the very best weeklies in Kentucky. Mr. Landram, who is a born humorist and has a style peculiarly his own, is one of the few Kentucky editors who have succeeded in running an independent paper, and he is rapidly coming to the front as a bright paragrapher. The people of Garrard seem to realize that they have a good thing in The Record and are giving Mr. Landram deserved support.—Richmond Register.

The Lancaster Record is ten years old and like old wine improves all the time. Editor Landram has been at the helm five years and is consequently almost a veteran as newspaper men go.—Stanford Journal.

Cuts, wounds, burns, sprains and bruises quickly heal if you apply Ballard's Snow Liniment. Price, 25 cts. and 50 cts. C. C. & J. E. Stormes. 1m

Pastor Willis delivered an excellent Easter sermon at Gums Chapel, Sunday and Sunday school, and prayer meeting were reorganized at that place.

Mike Ray, our carpenter, is in Kirksville, doing some work in that line. Mike is quite a genius, and can make anything he ever saw, from a cobble, up.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of DeWitt's Little Early Risers, the famous little pills. Stormes' Drug Store.

Morton Tenter is very low of consumption. E. W. Lawless and niece, Miss Susie Sandridge, are with relatives near Danville. Mr. and Mrs. Ebb Dickerson, visited R. L. Brown and family, of Kirksville, last week.

For frost bites, burns, indolent sores, eczemas, skin disease, and especially Piles, DeWitt's Witch Hazel Salve stands first and best. Look out for dishonest people who try to imitate and counterfeit it. It's their endorsement of a good article. Worthless goods are not imitated. Get DeWitt's Witch Hazel Salve. Stormes' Drug Store.

A Space Filler.

It may often happen that in making ready for the press, There is a corner to be filled—

An inch or two, say more or less. In such a case, with copy short, It's handy just to have about Some fellow who can write a verse like this, to fill the column out.

McCREARY.

Messrs. Robert Broadus and Elija Saunders, stock dealers of Madison county, stopped with Alex Walker, Sunday, on their way to Harrodsburg court.

The Lakeland Asylum has offered Miss Alice Saddle a lucrative position at that place. She has not decided whether she will accept or not. Many think she may get "Rich"—by staying here.

The Misses Pherigo accompanied by their brother Harvey, visited friends at Breachersville, last week. Miss Pearl Ross, of Lancaster, is the charming guest of Miss Laura Layton. Mr. E. W. Lawless, who is visiting his sister, Mrs. W. E. Dunn, at Milledgeville, is dangerously ill at this writing.

...David Logan, of Decatur, Ill., is visiting relatives here now. Little Irene Saddle who has been quite sick is some better at this time. Miss Tillie Warner was the guest of Miss Alice Saddle Saturday night and Sunday.

We met our old friend J. E. Waters while in Lancaster last week. Though many years have elapsed since I last saw him, time has not changed him a bit. He is just as frisky and looks as young as he did twenty years ago when he and I used to go a courting in the old Providence neighborhood.

We thought we were two mighty good chances, as he said, but the girls all looked before they leaped and didn't leap our way and the only consolation we had was that we got away with a fine lot of grub for the old folks and didn't want to marry any way.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. We read with interest what was in last week's issue of The Record in regard to so many roads centering at the mouth of Sugar Creek. If all the roads leading here were counted it is said would number something close to fifty. One of our citizens was conversing with an old gentleman, who lived here fifty or sixty years ago and he says that there were as many people here any day during the week as there are in Lancaster county court days, and no doubt but what there were as this was the only shipping point then for three or four counties around. An old citizen says he has seen all the ware-houses, yards and other places to store freight full and people did not have room to put their goods. Then about 300 hands worked here all the time building boats to ship freight down the river. There has not been much business here for several years but business has begun to increase and our village is on a boom and it will be but a short time until it will surpass its former state of prosperity. We will now in a very short time have the advantage of the new lock and then watch us grow. It would no doubt pay your city merchants to have their dry goods shipped here as they save close to 25 cents on the hundred by doing so.

Lovely Concert.

A large audience heard the Schuberts at the Court House Saturday night. Having appeared here before, they are great favorites with our people. The lady quartette is, undoubtedly, the best on the road and their singing is divine. Master Tommy Purcell, the child violinist, captured the audience and his marvelous playing elicited rounds of applause, as did also his recitations. Miss Mable Delaney's soprano solo won many well merited compliments. Her high notes were especially fine. Lovie Zandt Purcell is blessed with the sweetest contralto voice our people have ever had the pleasure of listening to. Her work in the quartettes was greatly admired and her solo called forth prolonged applause. She sang as an encore "Robin Adair," a song which always has been and will ever be a sweet favorite. Mr. Louis McPike's "Remarks on Marriage," and other selections were well received and made him a great favorite of the evening. Mr. McPike is certainly well up in his line and his imitations would cause a dog to laugh. Being a "K. P.," he met several of the order here and proved himself to be a thorough gentleman in every way. The Record, like all others who heard the Schuberts, would be greatly pleased if they will put Lancaster on their route next season, when they will be sure of receiving a warm reception in the new Opera House. It is an organization composed of ladies and gentlemen who give the cleanest and most lighted entertainment of any traveling troupe we ever saw.

A Rehearing Granted.

The Court Appeals has granted a rehearing in the case of the Town of Danville vs. The Boyle Fiscal Court. This suit, it will be remembered, was filed by the town in order to determine whether or not it was the duty of the county to keep in repair those portions of the freed turnpikes running into the city. Judge Sauley ruled that his court could not compel the county to do anything with the roads, and the town carried the case to the Court of Appeals. The higher court sustained Judge Sauley, but handed down no opinion in the case. City Attorney Fox then asked for a rehearing, which was granted and arguments called for. County Attorney Harding and City Attorney Fox then asked for a rehearing, which was granted and arguments called for.

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds, croup, whooping coughs and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. It is especially prized by mothers for their children, as is never fails to effect a speedy cure, and because they have found that there is not too least danger in giving it, even to babies, as it contains nothing injurious. Sold by R. E. McRoberts Druggist.

IN MEMORIAM.

Little Robert Cochran, who Died November 7, 1898.

My wife and I were at Chichasha, Indian Territory, when the sad news of the death of little Robert Cochran came to me. When I first read that Robert Cochran was buried Nov. 8th, I could scarce believe it true, but when I reflected a moment, I was impressed that life is only a silver thread, which, when broken, leaves the body to fall while the spirit takes its flight to the God who gave it, to be with Him forever more.

Then while I sit in meditation of the happy home, as it used to be when I lived with them, of the playful, cheerful boy, with the other children of the household, making the home a delightful one,—but now, Oh! so still and cold in death, my eyes filled with tears of sympathy for the parents who I knew were heart-broken and bereaved. The fond hopes and expectations of the parents for their boy's earthly career is cut short, and they are left to mourn their loss, but ah! they do not mourn as those who have no hope, far, through the veil of affliction the light of faith came forth, for behold! What is our loss? Heaven's gain,—for "Of such is the Kingdom of Heaven." The boy has died to live forever. He might have lived to die forever. Is not heaven more rich and real to the parents now, since they have a precious jewel there? "Can I bring him back again? I shall go to him, but he shall not return to me." Sam'l 12:23. (Rev.) J. A. Meehan.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was.—Free trial bottles of this Great Discovery at R. E. McRoberts Drug Store. Only 50 cents and \$1.00 every bottle guaranteed.

A Good Investment.

In a letter to his sister, Mr. B. G. Mullins writes from Bliss, Idaho, that he has recently disposed of a \$25,000 interest in the M. C. & R. railroad and invested in another enterprise which he would not give for a dozen investments like the one he had. The property consists of water rights covering 75,000 acres of the finest land in the Snake Valley for agriculture and Placer gold mines covering probably 10,000 acres more in which thousands of dollars may be taken from a single acre. He also has three-fourths interest in their inventions for water lifting, which are destined to revolutionize irrigation. Mr. Mullins many Kentucky friends trust his fondest hopes will materialize and that success will crown his ventures.

The Nicholasville Democrat says R. A. The East's New Religious Figure.

The policy of the Ladies' Home Journal, in its religious department, seems to be always to engage the pen of the man most immediately prominent in the eyes of the religious world. Thus it has had the services of Mr. Beecher, Doctor Talmage, Doctor Parkhurst, Ian MacLaren, and now it will have those of Doctor Newell Dwight Hillis, the new pastor of Plymouth church, in Brooklyn. Doctor Hillis has given the Journal a series of articles upon which he had been working for over a year previous to his Eastern call, and the first of these articles will be published in the next issue of the magazine. The series is all connected in thought, and presents the general subject of "The Secrets of a Happy Life."

About Farmers.

Farmers are farming more intelligently than ever before. They understand better how to prepare their fields for planting; better how to cultivate for the best results, and better how to sell their crops. The farmer is keeping pace with the manufacturer in this respect, and it will not be long that he will accept what is offered for his products without question. He understands the situation too well to let those who buy from him have all the say in marketing his products, and this increased intelligence and business shrewdness will work to his benefit to such an extent that the great exodus from the farms to the city will cease and the tide of population flow the other way. It is no longer a stigma to be called a farmer, and the boy who lives on the farm is now as well thought of as the one who studies for a profession and lives in a city. White hands and untanned cheeks are no longer looked upon as the certain badges of gentility, and the man who labors with his hands and supplements that labor by using his brain to make it more effective occupies as high a place in the affections of the public as any one.—Farm News.

THE SOUTHERN GIRL.

She is the Most Charming, Happy and Blessed of Columbia's Daughters.

In concluding an editorial inspired by a Southern girl's regret that she cannot go to college, Edward Bok, in the April Ladies' Home Journal, has this to say of the girls of the Southland: "The Southern girl is surrounded by a life far truer and more conducive to self-development than girls living in other sections, because social conditions are more normal. Her life is healthier because it is saner, and her mind, by reason of it, is clearer and more constantly at rest. The rush of life on the North and West is not so stimulating as many Southern girls suppose. On the contrary, it wears women out as often as it develops them. In no part of our country do women look younger at maturity than in the South. To the Southern girl, too, Nature blooms in a profusion as she does nowhere else. The natural history which the Northern girl must get out of books, the Southern girl gets direct from Nature's own hand. She is born of a soil as rich and colorful in romantic history as is the literature of Spain. This she receives as a natural heritage. Her parents are, and her ancestors were, among the best types of American civility and American womanhood. She hears but one language spoken, and that is her own. If there is the introduction of another tongue it is French, and with these two she can travel the world over and never be at a disadvantage. The religion which she learns from her mother is the highest and best because it is saturated with modern revelations. The truest friend and safest teacher in a 'highest living' girl can have is her mother, and in the South mothers have a way of finding time for their daughters—and being companions to them. The Southern father is fond of his children, and proves it by his presence at the domestic hearth after his day's business is over."

S. S. S. GOES TO THE BOTTOM.

Promptly Reaches the Seat of all Blood Diseases and Cures the Worst Cases.

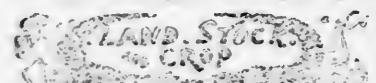

In every test made S. S. S. easily demonstrates its superiority over other blood purifiers. It matters not how obstinate the case, nor what other treatment or remedies have failed, S. S. S. always promptly reaches and cures any disease where the blood is in any way involved. Everyone who has had experience with blood diseases knows that there are no ailments or troubles so obstinate and difficult to cure. Very few remedies claim to cure such real, deep-seated blood diseases as S. S. S. cures, and none can offer such incontrovertible evidence of merit. S. S. S. is not merely a tonic—it is a cure. It goes down to the very seat of all blood diseases, and gets at the foundation of the very worst cases, and puts the poison from the system. It does not, like other remedies, dry up the poison and hide it from view temporarily, only to break forth more violently than ever; S. S. S. forces out every trace of taint, and rids the system of it forever.

Mrs. T. W. Lee, Montgomery, Ala., writes: "Some years ago I was afflicted with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot, and in my great extremity I prayed to die. Several prominent physicians treated me, but all to no purpose. The mercury and potash which they gave me seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made by R. to try Swift's Specific. I improved from the start, as the medicine seemed to go direct to the cause of the trouble and force the poison out. Twenty bottles cured me completely." Swift's Specific—

S. S. S. FOR THE BLOOD

—is the only remedy that is guaranteed purely vegetable, and contains no mercury, potash, arsenic, or any other mineral or chemical. It never fails to cure Cancer, Eczema, Scrofula, Throatitis, Contagious Blood Poison, Tetters, Boils, Carbuncles, Sores, etc.

Land Stock Crop. A fine, responsive about \$200,000 a year for United States furniture. The United States Furniture Company is one of the few companies of the kind that has not gone into the show trials. Brazil is now the principal coffee producing country of the world. In 1892 the crop was estimated at 7,000,000 bags. To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work. This surprise remedy for female disease as quickly cures rheumatisms, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50c. Sold by R. E. McRoberts Drugstore, Inc.

The goldfish is unproductive as a bicycle, and but eats his way up, while the mare will do her work and raise her colt every year. In the mare there is profit, there is none in the goldfish. Without twenty millions of horses we cannot meet the export demand. We have not enough of the right kind; not enough even to meet the home trade. The fact will be more evident the coming summer.

Horses are cheap in Australia because none of them are under roof from birth to breaking, and they get nothing to eat but the grass they pick up. Eighty per cent. of them are used for the saddle and light harness. It is estimated that there is a spec-

DIGEST YOUR FOOD.

of pure corn meal, the coldest of it more bulky and rendering it easier of digestion. All food should be ground to get the best results. It pays the farmer to have his own feed grinder, and save the hauling to mill and the toll.

Red sugar is gaining in favor over cane. A few years ago sugar from cane was almost the only kind used. Now beet sugar is nearly in the proportion of 70 per cent. as compared with the cane. It is even asserted by those supposed to know the facts that England and Holland although owning large cane sugar islands in their colonies are encouraging the cultivation of sugar beets at home as more profitable. New beet sugar factories will be erected this summer in the states that give a bounty for the sugar, but there will be none in Indiana. Our legislature could not see the wisdom of granting encouragement to the industry.

E. R. R. of Newspaper A.

The editor of the Columbia Herald in his usual scissile and clear style, has the following to say of errors in newspapers: "There was never an errorless newspaper any more than there is anywhere an errorless man. Newspapers are the creation of compositors, correspondents, contributors, editors—each of whom is human and therefore liable to error. Mistakes are in newspapers through misinformation. Sometimes they are the result of laziness, sometimes of carelessness, sometimes of wrong information given by supposedly reliable persons. Sometimes unfair impressions are given through exaggerations of fact. Not often is a newspaper guilty of deliberate falsehood.

Newspaper errors are sometimes typographical. Typo is as pervasive as a spilled child and will make the most atrocious blunders. Even the most careful and conscientious proof-reader can not find them all. Bad writing leads to some errors. Not every one who writes for a newspaper writes legibly all the time. In fact there is more bad writing comes into a newspaper office than anywhere under the rising sun. The compositor, the man or woman who sets the type, is sometimes at fault. These folks are fallible like the rest of us.

A newspaper, in the creation of which so many hands enter, will occasionally, like great Homer, nod. The marvel is that, under all the circumstances, the mistakes should be so few and infrequent.
